

RED WINE SOILING⁺

For the Assessment of Bleaching Systems

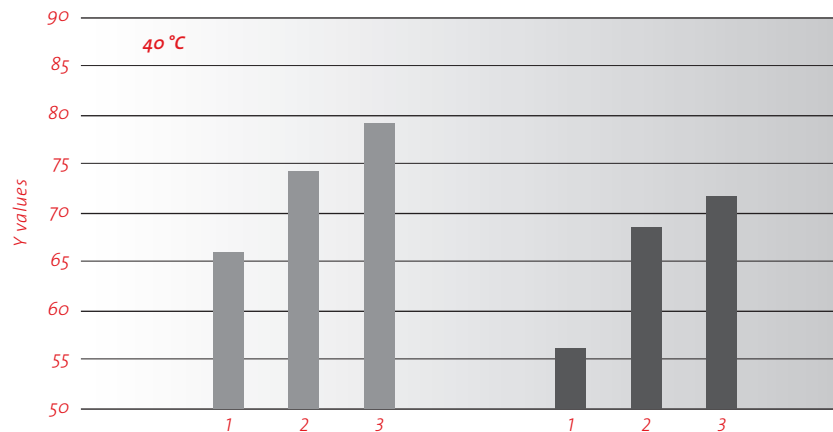

article 114
on cotton

article 122
on cotton

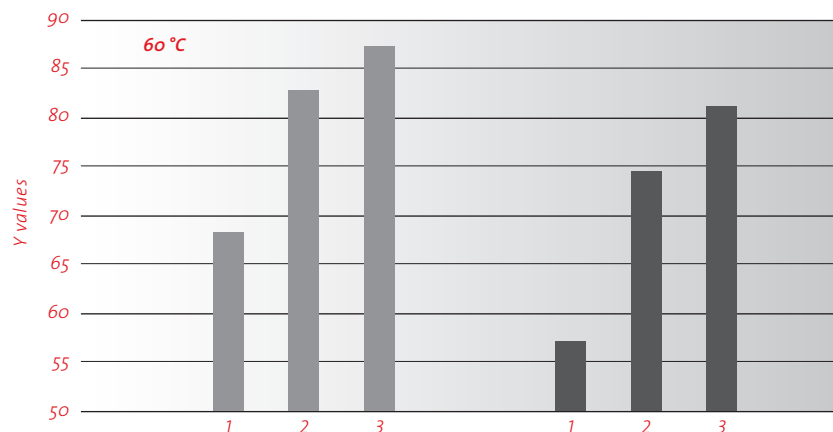

Influence of the quantity of bleaching agents

- article 114
red wine soiling
- article 122
special red wine soiling (aged)

- 1 0% perborate
- 2 10% perborate
- 3 20% perborate

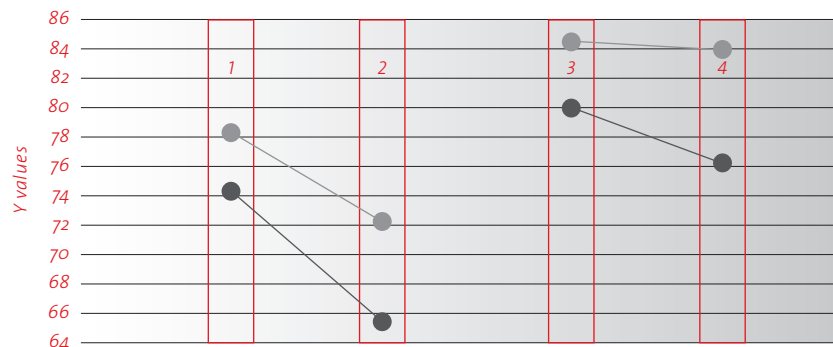

- article 114
red wine soiling
- article 122
special red wine soiling (aged)

- 1 0% perborate
- 2 10% perborate
- 3 20% perborate

washing liquor:
6 g/l IEC A^{*}; Ratio of sodium perborate/TAED = 10 / 1.5

Influence of stress on a perborate/TAED system

- article 114
- article 122

- 1 unstressed 40°C
- 2 stressed 40°C
- 3 unstressed 60°C
- 4 stressed 60°C

washing liquor:
77% IEC A^{*} /
20% perborate /
3% TAED
